

Landlording (Buy and Hold)

How do I use SocialServe.com?

You will use Social Serve to search for available rental properties in your target market. You will use the script to call the owners and see if they are interested in selling their property. If so, pursue them as a motivated seller. If not, you will ask them if they are interested in buying more properties at a discount similar to the one they have available for rent. If they are, add them to your buyer list.
