

Marketing and Lead Gen

What do I do if I'm going to be deployed overseas and/or out of the country soon?

First; thank you for serving our country! Second; we can help you set up your business to be a successful investor virtually. No matter where in the world you are, we'll help you set up the business systems to be able to do deals in your target market no matter where you happen to be. If you happen to be on the other side of the globe, it may be more challenging to take and return seller calls due to the timezone difference. In that instance, it is usually better to have an answering service such as 1-800 We Answer take your inbound seller calls. Everything else is the same as doing virtual wholesaling if you were still stateside.
